Mr Steven H Gunderson
Rocky Flats Cleanup Agreement Coordinator
Colorado Department of Public Health and Environment
4300 Cherry Creek Drive South
Denver, CO 80222-1530

Dear Mr Gunderson

Please find enclosed the Reconnaissance Level Characterization Report buildings 881, 881F, 887, and Building 881 stacks 1, 2, & 3 The buildings have been characterized as Rocky Flats Cleanup Agreement (RFCA) type 1 & 2 facilities

It is notable that no transuranic contamination, such as plutonium, was found during the characterization of Building 881 In addition, the stage 1 of the High Efficiency Particulate Air filters removed a few months ago also showed no plutonium contamination While the uranium contamination is widespread inside the building, it is fairly straightforward to deal with compared to plutonium as uranium decontamination requires no special technologies, these aspects support typing Building 881 as a RFCA type 2 facility

Questions can be directed to Steve Tower, Projects, Rocky Flats Field Office, at (303) 966-2133

Sincerely,

Joseph A Legare
Assistant Manager
for Environment and Stewardship
